

# Right now...

**Fortuna** isn't worried about moving schools and making new friends

**Alexander & Carolina** are living in a safe, uncrowded home of their own

**Lawrence & Vicky** received much needed repairs and now have heat and hot water again

# ... because of you.

The people we partner with show enormous strength in overcoming barriers to create better lives for their family.

We see it every day. They find childcare and swap shifts at work so they can raise the walls of their future home. They navigate unfamiliar territory as they become the first in their families to buy a home. After working all day, they show up to homeowner class at night. While making a fraction of the median income in Lexington, they budget and save for homeownership even when it feels out of reach.

They are single parents. Refugees. Grandparents raising grandchildren. They are our neighbors and they are resilient.

We are writing to you today because their strength and resilience alone isn't enough. Making our community a place where everyone has a decent place to live is a team effort. Will you join us and these families in bringing affordable homeownership within reach of more people in Lexington?

When you donate, you are extending a hand to a family that needs it today. You are giving a family the opportunity to transform their lives with the financial stability that comes with homeownership. You are creating homes where children have a chance to succeed. It is a gift with an impact that will be felt for generations to come.

# Thank you.
